KONU :Soru Önergisi

TÜRKİYE BÜYÜK MİLLET MECLİSİ BAŞKANLIĞINA

İLGİ :a) 11.01.2001 tarih ve A.01.0.GNS.0.10.00.02-8180 sayılı yazınız.

Bursa Milletvekili Ertuğrul YALÇINBAYIR tarafından Türkiye Büyük Millet Meclisi Başkanlığına tevcih edilen ve tarafımdan cevaplandırılması istenen 7/3136-8062, 7/3137-8063, 7/3158-8084, 7/3159-8085, 7/3160-8086, 7/3161-8087 esas sayılı soru önergelerine ilişkin cevaplar ekte gönderilmektedir.

Bilgilerinize arz ederim.

Dr.Yüksel YALOVA
Devlet Bakanı

PROJE NO: 98C130040

KIRIKKALE RAFİNERİSİ DİZEL KÜKÜRT GİDERME VE REFORMER ÜNİTESİNİN
MODERNİZASYONU

SORU ÖNERGESİ NO : 7/3136, 8062/19671

2001 Yılı Yatırım Programında 98C130040 proje no.su ile yer alan "Kırıkkale Rafinerisi Yeni Dizel Kükürt Giderme Ünitesi Tesisi ve Reformer Ünitesi Modernizasyonu Projesi" DPT Müsteşarlığı'nca 1998 yılında "Kırıkkale Rafinerisi Dizel Kükürt Giderme ve LPG Tatlılaştırma Ünitesi Tesisi Projesi" adı altında yatırım programına alınmıştır.

Doğayı ve doğal kaynakları korumaya yönelik çözümlerden biri de LPG'nin içindeki kükürt bileşiklerini gidermektir. Bu amaçla Avrupa Birliği Standartlarına, dolayısıyla ASTM, GPA, CEN LPG standartlarına ulaşabilmek için, LPG içindeki merkaptan türü kükürdün max.10 ppm.'e düşürülmesi gerekmektedir. LPG Tatlılaştırma Ünitesi tesisi ile rafineride üretilen LPG ürünü içindeki, çevreye zararlı merkaptan türü kükürt bileşikleri giderilecektir. Ünitenin kapasitesi 1000 m³/gün olarak belirlenmiştir.

LPG Tatlılaştırma ünitesinin temel mühendislik çalışmaları lisansör firma MERICHEM (ABD) tarafından gerçekleştirilmiştir. Ünitenin detay mühendisliği PROKON firması tarafından gerçekleştirilmiş olup, ilgili projelerin tamamı teslim alınmıştır. Ünitenin inşaat ve montajı İM-KA Ltd.Şti. tarafından 3,5 ay gibi kısa bir sürede tamamlanarak ünite 7 Haziran 2000 tarihinde devreye alınmıştır. Performans testleri yapılmış olup, sonuçlar değerlendirilmektedir.

Projenin kapsamında bulunan Gaz Türbini ve Kojenerasyon Ünitesi tesisi ile ilgili ayrı bir ihale dosyası hazırlanmış olup, ihaleye çıkılacak firmalar için yetkili makamın onayı alınmıştır. İhale dökümanları firmalara 17.10.2000 tarihinde gönderilmiş olup, son teklif verme tarihi 23.01.2001 tarihi firmalardan gelen talepler doğrultusunda görülen lüzum üzerine 14.02.2001 tarihi olarak değiştirilmiştir.

27 Şubat 1995 tarihli Resmi Gazetede belirtildiği gibi TS-3082 Motorin Standardı yerine Türk Standartları Enstitüsü tarafından yeniden hazırlanan TS-3082-EN 590 Otomotiv Dolayısı ile rafineride üretilen dizel'in kükürdünün, ağırlıkça 0.005'e kadar giderilmesi gerekmektedir. Dizel Kükürt Giderme Ünitesi Tesisi ile dizel yakıtın kükürdü giderilecek, Setan numarası ve CFPP değeri de Avrupa Birliği speklerine uygun hale getirilecektir. Bu nedenle Dizel Kükürt Giderme Ünitesi Tesisi işinde Lisans ve Ana Mühendislik hizmetlerinin temini için çıkılan yurt dışı ihalede teklifler alınmış olup, değerlendirme çalışmalarında son aşamaya gelinmiştir. Gerekli ana mühendislik temin edildikten sonra Detay Mühendislik, Satınalma ve İnşaat/Montaj işleri için ayrıca yurt dışı ihaleye çıkılacaktır.

Ayrıca Reformer Ünitesi Modernizasyonu işinde Lisans ve Ana Mühendislik hizmetlerinin temini için yurt dışı ihaleye çıkabilmek için gerekli hazırlıklar yapılmaktadır. Gerekli ana mühendislik temin edildikten sonra Detay Mühendislik, Satınalma ve İnşaat/Montaj işleri için ayrıca yurt dışı ihaleye çıkılacaktır.

Söz konusu bu iki projenin 2004 yılında tamamlanması planlanmakta olup, projenin bitiş tarihi itibarıyla Net Yurt İçi Katma Değeri 132 Milyon USD'dir.
